Experiment Title : Building a Simple Counter App using React Hooks. Use React Hooks (useState, useEffect) to manage state and side effects.

CODE :

App.js

```
import React, { useState, useEffect } from "react";

function App() {
  const [count, setCount] = useState(0);

  useEffect(() => {
    document.title = `Count: ${count}`;
  }, [count]);

  // ⭐ PASTE NEW UI CODE BELOW THIS LINE ⭐
  return (
    <div style={{
      textAlign: "center",
```

```
  marginTop: "80px",
  background: "#f7f7f7",
  width: "350px",
  marginLeft: "auto",
  marginRight: "auto",
  padding: "30px",
  borderRadius: "15px",
  boxShadow: "0 4px 10px rgba(0,0,0,0.1)"
}}>
  <h2 style={{ marginBottom: "20px", color: "#333" }}>
    Simple Counter App
  </h2>

  <h1 style={{
    fontSize: "60px",
    marginBottom: "20px",
    color: "#444"
  }}>
    {count}
  </h1>

  <button
    style={{
      padding: "10px 20px",
```

```
    marginRight: "10px",
    background: "#4CAF50",
    color: "white",
    border: "none",
    borderRadius: "8px",
    cursor: "pointer",
    fontSize: "16px"
  }}
  onClick={() => setCount(count + 1)}
>
  Increment
</button>

<button
  style={{
    padding: "10px 20px",
    background: "#E53935",
    color: "white",
    border: "none",
    borderRadius: "8px",
    cursor: "pointer",
    fontSize: "16px",
  }}
  onClick={() => setCount(count - 1)}
```

```
      >
        Decrement
      </button>
    </div>
  );
}
export default App;
```
